DipMaster 50 Dip Coater is a specially designed tool for performing the feasibility study of research & development in thin films and coatings from the experts in the dip coating technology. It is compact and light for easy setup in the laboratory: fume hoods, glove boxes, laminar air flow benches, etc. to be convenient to conduct experiment. The maintenance-free feature comes from its ruggedness and simple design. The coater can be easily configured into a system to do a single solution coating or multiple solution coatings by the combination of the coater with the solution management modules.

### DipMaster 50

### Specification

<b>Dimension</b>	6" (W) x 12" (D) x 14" (H) 15 cm (W) x 30 cm (D) x 35 cm (H)
<b>Net Weight</b>	11 lb (5 kg)
<b>Substrate Size</b>	2" x 2" (5 cm x 5 cm)
<b>Withdrawal Speed Range</b>	0.5" (1.25 cm) - 4" (10 cm)/minute
<b>Adjustable Withdrawal Distance</b>	Up to 3" (7.5 cm)
Single Tank Module	250 ml
Multiple Tank Module	6 x 250 ml
Solution Temperature Control	Option
Timer for Solution Aging	4 hrs
